

Nearly 80% of all snowmobile trails in New York State and 95% of the trails in Washington County are located on private lands. Without the generous support of thousands of private landowners across the state and hundreds across the county, there would be no snowmobile trail system for wintertime enjoyment.

Snowmobiling is a long time family activity which provides over \$800 million dollars annually to the state and local economy during the winter months.

The landowner, when giving permission to a snowmobile club, continues all rights of ownership of the land the trail is on. The landowner is simply allowing the local club seasonal use of a specific portion of the landowner's property for a snowmobile trail. Clubs seeking landowner permission for a trail are requesting permission for seasonal snowmobile use, NOT for other trail uses.

By giving permission for seasonal access to the club, the landowner does not incur additional liability under protections of the General Obligations law. The incorporated snowmobile club assumes the responsibility for the condition of the snowmobile trail. Its liability insurance policy as part of the New York State Snowmobile Association (NYSSA) protects the club for its trail maintenance actions and protects the landowner that gives permission for the trail.

The landowner may have the club install bridges and culverts, install signs and groom the trail according to his or her wishes. The club is a willing partner with the landowner to provide the safest trail possible for use on the landowner's property.

PIG ROAST
EVERYONE WELCOME!

Sno Rules

SnoBlazers Snowmobile Club

Saturday, October Each Fall
Each Ticket = \$20.00
